

**LOCAL DEVELOPMENT PLAN R-CODE VARIATIONS**

The Local Town Planning Scheme and R-Codes are varied in the following manner:

**General**

- All lots within this Local Development Plan are coded as per the approved Density Sites Plan.
- The requirements of the R-Codes and the RMD Codes (as applied through the City's Local Planning Policy POL-IP-11) are varied as shown on this plan.
- The requirements of the R-Codes, RMD Codes and Town Planning Scheme shall be satisfied in all other matters.
- Consultation with adjoining or other landowners to achieve a variation to the R-Codes, in accordance with the approved Local Development Plan, is not required.
- Minor variations to the requirements of this LDP may be approved by the City of Swan.

**Storage and Refuse**

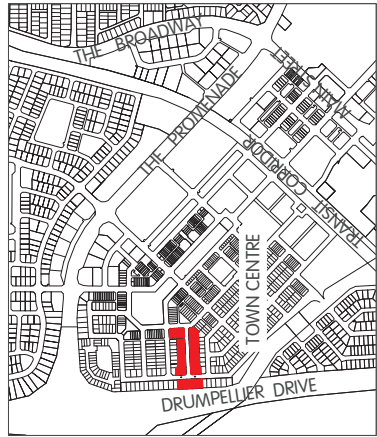

- Refuse storage areas shall be screened from the laneway and road.

**Car Parking and Access**

- For corner lots, the crossover/garage is to be located the maximum distance from the truncation as possible (subject to engineering constraints).
- For lots 8.5m wide lots, garages on single storey dwellings shall not exceed 3.5 metres in width. A double garage is permitted for double storey dwellings provided a habitable room overlooks the primary street and the crossover does not exceed 4.5m in width.

**Built Form**

- For two storey dwellings, each upper floor facade facing a laneway or public open space shall include at least one major opening allowing surveillance to the laneway/ POS.
- For all developments which include non-residential land uses; the Development Application (DA) shall include an Acoustic report to demonstrate how the proposed development has been acoustically assessed and designed for the purpose of minimizing the effect of noise intrusion and / or noise emissions.
- The acoustic report shall be prepared by an acoustic consultant to the satisfaction of the City and address all matters that are required to demonstrate that the acceptable noise criteria will be achieved including:
  - The identification of all noise sources to be addressed, including air conditioning, refrigeration and exhaust units;
  - The establishment of Assigned Levels for noise sensitive premises in the vicinity in accordance with the Environmental Protection (Noise) Regulations 1997;
  - A detailed description of the construction measures that are required to be included; or which have been included, in the proposed development to achieve noise levels prescribed in the Noise Regulations.
  - For external noise sources, a description of the measures that are required to be included, or which have been included, in the proposed development to comply with the Environmental Protection (Noise) Regulations 1997.
- Lot 11498 shown on this LDP is affected by Quiet House Design Package A requirements due to noise from Drumpeller Drive. Dwellings on these lots must be constructed in accordance with additional controls as specified in *Hesperia Subdivision Traffic Noise Assessment* (Herring Storer, Dec. 2019). A copy of the report is available from City of Swan or the developer.
- Lots 11494-11498 shown on this LDP is subject to an approved Bushfire Management Plan (Strategen, July 2019) and dwelling construction must be in accordance with approved BMP requirements. At the discretion of the City of Swan and prior to building construction, Bushfire Attack Level (BAL) ratings may be reassessed for individual lots.
- Built form associated with non-residential land uses must be compatible with surrounding residential development. To ensure this, all developments including non-residential land uses should comply with the relevant R-Codes standards for residential development (i.e. setbacks, building heights, visual privacy, open space, street surveillance). For overlooking and surveillance, the R-Codes term for "habitable spaces" shall be interpreted as rooms which are used for active work (i.e. offices, reception areas, workshops) but shall exclude spaces that are not normally counted as "habitable spaces" in dwellings (i.e. bathrooms, kitchens, starwells, laundries).
- The following standards apply to development of Lot 11352:
  - Each dwelling facade facing Raleigh Street and/or Catalpa Avenue shall include at least one major opening allowing surveillance of the street frontage.
  - Dwelling setbacks for the Raleigh Street and Catalpa Avenue frontages shall be as per the primary street setback requirements under POL-IP-11 for the designated density code.
